Dear Requester

Thank you for your request for information about Geddington Pumping Station, which we received on 24 March 2026. Your request has been considered under the Environmental Information Regulations 2004 (EIR).

You requested:

1. Data on discharges from Geddington Pumping Station
2. Does Geddington Pumping Station have an Event Duration Monitor
3. Maintenance at Geddington Pumping Station

EIR Response: Provision of Requested Information

Please find attached:

- Geddington PS.pdf

Item 1 is held by Anglian Water and has been provided as an attachment.

Please find attached Geddington PS.pdf that shows the reports of all Emergency Overflow incidents at Geddington

Item 2 is held by Anglian Water and has been provided below.

The overflow at Geddington Pumping Station is an Emergency Overflow. There is a programme of fitting EDMs to all Emergency overflows and will be completed by 2035. However all Emergency Overflows at pumping stations such as Geddington have telemetry that send alerts when an overflow is in progress. A member of Anglian Water staff would then attend the site.

The map on our website shows the EDMs on storm overflows.

Item 3 is held by Anglian Water, and is provided below.

The pumping station at Geddington is monitored by telemetry. This alerts the business when there is a possible issue with the pumping station. When an alert is received a technician is sent to the pumping station to carry out maintenance and repairs.
