CONTROL OF POLLUTION ACT 1974 - SECTION 34  
THE CONTROL OF POLLUTION (DISCHARGES BY AUTHORITIES)  
REGULATIONS 1984

CONSENT FOR A DISCHARGE

1. The ANGLIAN WATER AUTHORITY (hereinafter referred to as "the Water Authority") proposes to discharge sewage effluent in accordance with the application dated 24 February 1989.
2. The proposal requires the consent of the Secretary of State for the Environment in pursuance of section 34 of the Control of Pollution Act 1974 and the Control of Pollution (Discharges by Authorities) Regulations 1984.
3. The SECRETARY OF STATE FOR THE ENVIRONMENT hereby consents to the proposed discharge subject to the discharge conforming at all times to the terms of the certificate attached hereto.

THE CONTROL OF POLLUTION ACT 1974: SECTION 34THE CONTROL OF POLLUTION (DISCHARGES BY AUTHORITIES) REGULATIONS 1984CERTIFICATE ATTACHED TO A CONSENT FOR A DISCHARGE

On behalf of the ..... ANGLIAN ..... Water Authority I certify that, in respect of the discharge from the Authority's sewage treatment works at ..... GREAT BEALINGS ..... (National Grid Reference ..... TM22754912 .....):

1. The effluent derives from domestic sewage from a population of 250 or less and contains no authorised trade waste.
2. There are no potable water supply intakes downstream which are likely to be adversely affected.
3. As far as is reasonably practicable, the works shall be operated so as to prevent:
  - (i) any matter being present in the effluent which will cause the receiving water to be poisonous or injurious to fish or to their spawn, or spawning grounds or food, or otherwise cause damage to the ecology of the receiving waters; and
  - (ii) the treated effluent from having any other adverse environmental impact.
4. The Authority will operate the works having regard, so far as relevant, to the guidance set out in the National Water Council's Occasional Technical Paper Number 4, "The Operation and Maintenance of Small Sewage Works" dated January 1980. In particular the works shall be maintained properly such that:
  - (a) it remains fully operational except at times of mechanical or electrical breakdown;
  - (b) any such breakdowns shall be attended to promptly and the equipment returned to normal operation as soon as possible; and
  - (c) tanks shall be desludged at sufficient frequency and in such a manner as to prevent problems with septic tanks, rising sludge or excessive carryover of suspended solids.
