Public interest test

While we understand the public interest in the supply of safe potable water, individuals can search using their postcode on our website to see what public water supply zone they are in, if there is any concerns or reports of a water quality issue and read a water quality report for the area. This is available on [Public Water Supply Zone Information..](#)

Anglian Water believes that supplying information showing the water resource zone is exempt under Regulation 12(5)(a) as it's disclosure would adversely affect the ability to protect the public and our water supply network from acts of sabotage. While we do not believe that this is your intention in asking for the information, disclosure under EIR is to the world.

You are free to use it for your own purposes, including any non-commercial research you are doing, and for the purposes of news reporting. Any other re-use (for example, commercial publication) would require the permission of the copyright holder. It is important that this data is not published for security reasons.
