Dear Requester

Thank you for your request for information about storm overflows, which we received on 17 November 2025. Your request has been considered under the Environmental Information Regulations 2004 (EIR).

You requested:

1. Storm overflow data for The Pix Brook for the past six years
2. Why has the storm overflow at The Pix Brook not been prioritised for immediate improvement

### **EIR Response: Provision of Requested Information**

**Item 1** is held by Anglian Water and is readily available.

All data on storm overflows is available on our website [Storm overflows](#). The most recent activation of the EDM is available on our storm overflow map [What we're doing to improve your local rivers & coastline](#). In year EDM activations is available here [Monthly EDM Publication](#)

**Item 2** is held by Anglian Water and is provided below.

A prioritisation process was carried out using criteria defined by Defra and the Environment Agency on all overflows to determine which overflows would be worked on first. The overflow at The Pix Brook was classed as a lower priority as there are other overflows that need to be addressed first. More information on the process is available on our website [Storm overflows](#)
